

User Stories not addressed during the semester

32	As a passenger I want to be able to make direct payments to a pilot account that I have scheduled a booking with so that I can cover the costs of the trip.
34	As a passenger, I want to be able to get fully refunded when I cancel a trip before a set date so that I don't waste my money.
12	As a potential passenger, I want the ability to search using multiple parameters so that I can find listings that best match what I am looking for.
16	As a recent passenger, I want to be able to write a review of the experience after the trip so that future passengers can get a sense of the quality of ride expected.
15	As a pilot, I want to be able to view my upcoming trips with a schedule planner so that I can plan when to be at an airport.
14	As a potential passenger, I want to be able to see how many seats are currently available so that I can book a flight with available seating.
21	As a pilot, I want to be able to post not only my home airport, but where I frequently go/ where I can go so that my listing reaches a wider audience of potential passengers.
17	As a passenger account holder, I want to be able to view reviews regarding the service from other passengers so that I can accurately decide if I am interested in a specific service.
18	As a pilot account holder, I want to be able to receive reviews regarding the service so that I can better the experience for future passengers.
11	As a potential passenger, I want to be able to view a map that shows listings so that I can see the available pilots at different airports.
36	As a pilot, I would like to view my flight path in a flight history so that I don't have to track it myself.
28	As a pilot, I would like to view my flight price in a flight history so that I don't have to track it myself.
29	As a pilot, I would like to view my flight date in a flight history so that I don't have to track it myself.
30	As a pilot, I would like to view my passengers in a flight history so that I don't have to track it myself.
9	As a potential passenger, I want to allow my location to be tracked so that I can view listings at airports near me.

22	As a potential passenger, I want to be able to have easy access to pricing information so that I can quickly determine if a listing is within my budget.
26	As a passenger I would like to see the most popular rated destinations by other passengers so that I can take that into consideration when making my decision.

Plan for the future:

The plan for future development of this app would be to continue our agile scrum to attack these user stories one by one. We have done around 3 user stories per 2 week sprint thus far, and we plan to continue that strategy moving forward. For starters, we would want to start this process by making documentation for all of the user stories i.e. sequence diagrams, design class diagrams, software architecture, etc. trying to make sure we follow our current design pattern. Then from there we could start the implementation of the rest of these user stories, but the documentation is definitely extremely important.
